

## A Singular, Signature Experience

Birdair was awarded the design-build contract for the Imagine Clearwater Amphitheater, a 4,000-seat covered outdoor venue in Clearwater, Fla., that will feature a free span tensile membrane roofing system that resembles a floating structure. In addition to the bandshell structure, Birdair will construct 15 modular PTFE tensile canopies throughout the nearby park.

### **Amazing Acoustics**

Tensotherm™, the world's first and only translucent and insulated tensile fabric roofing material, is ideal where significant acoustic dampening is desired. With a Tensotherm roof, even the din of a cavernous space can be made to sound more like an intimate setting.

### **Rising Above the Rest**

Lakhta Center, a multifunctional modern business center in St. Petersburg and the tallest building in Russia, features an ETFE roofing system designed and installed by Birdair's sister company, Taiyo Europe.
